## ExpressLunch!

ExpressLunch! Is not available in all markets.

*Express*Lunch! provides a <u>post billing</u> capability, in a cafeteria line environment (in some cases it can be offered in a classroom serving environment.). Where offered, a caterer representative will be available to offer a meal and record the transaction for entry into Lunch Direct, and reconciliation.

If lunches are available from the caterer, it will be provided to the student without a meal, and recorded in the parent account. Detail will be kept in the Payment History.

An email will be sent to the parent notifying them that an *Express*Lunch! was provided to their child, with notification to sign into Lunch Direct and settle the debt.

Dear Berg family,

Our records indicate that a lunch was provided to your child at Brianwood School without prior payment for the meal. Our service requires pre-payment of all meals.

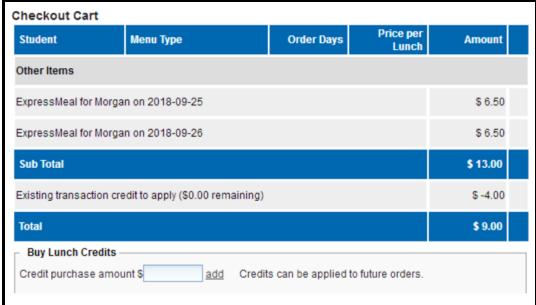

Please login or create an account to reconcile the balance owed at <a href="https://lunchdirectcom.zavaleta.org/">https://lunchdirectcom.zavaleta.org/</a>

Thank you for your prompt attention to this matter.

It is a post payment applied to the parent account with an open debit. The parent should settle the open receivable and zero out the debit.

If you have any questions regarding the ExpressLunch! please contact Sami's Cafeteria at samibanerjee@gmail.com

ExpressLunch! charge shown on Checkout Cart

The school will assist in handling the collection, if needed.

Questions related to the charge should be directed to the Caterer, or to the representative in the lunch line.
